TERMS

This list cancels all previous offers and is subject to change without notice.

DISCLAIMER: Herbst Brothers Seedsmen, Inc., warrants to the extent of the purchase price that seeds or bulbs are as described on the container, within recognized tolerances. Seller gives no other or further warranty, express or implied.

PRICES are in U. S. A. dollars, f. o. b. New York, for net weights. Packing is charged at cost and is not returnable. All shipments travel at customers' risk after delivery to carriers. **We cannot accept orders for less than the smallest quantity quoted.** Prices are calculated for professional growers and minimum orders of \$5.00.

PAYMENT net cash upon receipt of invoice. New customers ordering \$10.00 or more may secure deliveries on open account after establishing credit facilities. Others please remit for value of their purchases **plus 10% for packing, insurance and parcel post charges.**

COMPLAINTS on outward appearance and on the weight of the seed must be lodged within a week; those on the germination within a month; those on the trueness of the purity of the strain within 6 months; all to count from the day of arrival at the destination.

PRO RATA DELIVERIES will be made in case of crop failures or shortages.

FOREIGN ORDERS will receive careful attention. We make a moderate charge (Minimum \$2.50) for the preparation of export shipments, plus actual cash disbursements for forms, consular fees and delivery to carrier.

CLEAN SEED or seed free of pulp of the best possible purity and germination is offered throughout our catalog. Exceptions are designated as follows:

(DB) Dried Berries (DH) Hips (P) Pods

FIGURES IN BRACKETS FOLLOWING DESCRIPTIONS indicate the average number of seeds per ounce (or pound where specified). The number of seedlings a pound of seed will produce will vary with the germinative ability of each species and the crop year.

NOMENCLATURE for Tree and Shrub Seeds is "Standardized Plant Names" second edition of the American Joint Committee on Horticultural Nomenclature. Copies available at \$10.50 postpaid in U. S. A. and Canada.

ORIGIN of all seeds offered is available on request. Our aim is to carry seed from the best known sources. No attempt is therefore made to include proveniens in this list.

MERION BLUE GRASS-ZOYSIA JAPONICA LAWNSEED MIXTURE

We take pleasure in introducing the most remarkable development in lawn seeding in many years. This sensational formula contains grasses which will enable you to maintain a dense carpet of smooth, green turf during the entire growing season from early spring right through the hot summer months until winter sets in.

Our formula contains 45% Merion Blue Grass which has proved its worth as just about the finest of all cool-season grasses. It is a great improvement over standard blue grass as it spreads faster; requires less mowing and withstands closer cutting; resists weeds and diseases. This seed is much smaller, thus less seed is needed to plant a given area.

Zoysia Japonica is the only known grass which thrives best in hot weather when other grasses become dormant and permit weeds to invade lawns. Zoysia actually outgrows Crabgrass and prevents its spreading.

Illahoe Fescue, a new strain of Creeping Red Fescue developed a few years ago, is a perennial grass of fine texture and pleasing color that does well in poor or rich soil and is highly resistant to drought and disease.

By blending these three permanent grasses you get the benefit of all their outstanding qualities. However, as is the case with all permanent grasses, this new formula is not a fast growing one. To overcome this we have added some Red Top, a quick germinating nurse grass which keeps down weed growth until the other grasses become firmly established.

One pound of Merion Blue-Zoysia Mixture covers about 700 square feet. This is more than three times the area planted with standard lawn seed mixtures, thus making our new formula no more expensive.
